Criminal Procedure: Law And Practice

Synopsis

Packed with examples from real-world situations faced by today's law enforcement professionals, **CRIMINAL PROCEDURE: LAW AND PRACTICE, 9e** gives you a practical and authoritative look at the most current guidelines in criminal procedure. Comprehensive and accurate without bogging you down in unnecessary details, the text includes cutting-edge coverage of the law on arrests, searches and seizures, vehicle stops, use of force, interrogations, and line-ups. It also discusses current topics on racial profiling, DNA evidence, plea bargaining, seizures of text/email messages, technology, the USA Patriot Act, and much more. Long known for its relevance to law enforcement, it features interesting case briefs, sample police forms, hypothetical cases, and coverage of the most recent Supreme Court rulings. Customer Reviews

Overall, the subject matter is very informative and reads very well. However, as the first review did note, I received an instructor's edition that explicitly says all over the cover "Not for resale." I'm a little ashamed to carry it around campus to read, because it so blatantly says that it is licensed for instructor's use only. I purchased it used, which is still at an exorbitant price. And to receive an instructor's edition without any warning seems like a scam. Very displeased with the seller.

The pages of the book were like new. The cover of the book was horrible. There was colored tape and stickers all over the book. It looked like they had tried to make a new cover for the book. After

removing some of the tape it was discovered there was nothing wrong with the cover. They were just trying to hide the fact that the books were instructor versions. The material in the inside is the same for both student and instructor version just the covers are different. I order Criminal Procedure: Law and Practice 9th edition books. I didn't want an instructor version or a taped cover. I expected to have some use stickers on the outside of the book, but this was wrong to sell these books as they were.

If a law student is fortunate enough to have this textbook as a requirement of their course, then they are in for a great read. The book is comprehensive in terms of layering law in immediately practical format, and grouping the many factors and agencies in the criminal justice system so that the student gets the grand picture of the justice system. Further chapters break down the responsibilities of each system and explain how they work interdependently. This is a terrific introductory text with highlighted information and thousands of outside (free) sites to really dig deep into preparation of assignments and research. Included are resources to up-to-date database search sites to take your legal research in any direction and find the answers you're looking for. This ninth edition text is a powerhouse for easy to read and informative criminal procedure with an exciting presentation, easy to annotate, and written so well that many facets of criminal justice procedure become instinct for the student for recollection and application.

What is the point of an e-book if you can not search accurately? This book is worthless for searching so unless you want to read the whole thing I would suggest you not rely on this for school.

Great book! Very easy to understand but gives detailed and full explanations, covers a lot of material thoroughly. Gives case briefings and current events and developments, one of the few textbooks I enjoyed reading!

I thoroughly enjoyed this text. Some texts require a dictionary just to get through one chapter. This text's readability was perfect. Excellent summary/briefs on important cases. Very articulate regarding criminal procedure and many case examples to learn from. I decided not to sell this book after my course -- whenever I'm in doubt about a procedure, I refer to this text.

The book came extremely damaged and close to falling apart. I was not impressed with the quality. However, the text itself was very informative, although a little dry.

The book is easy to understand. It's very interesting. I really like it. I would recommend it if you are studying criminal law.
