The U.S. ties with East Asian countries continues to grow whether from a business perspective or accepting students.Understanding the diverse cultures of more than 60 percent of the worldâ™s population from China, Taiwan, Macau, Hong Kong, Japan, South and North Korea and Mongolia can be a valuable resource for those involved in higher education or trade. Created by the Michigan State University School of Journalism, 100 Question & Answers about East Asian Cultures provides

some unique insight into values, culture, customs, traditions, language, communication and food, to name a few. The guide provides a clear discussion of each country to understand the regional differences of the second greatest land mass in the world. As trade between East Asian countries and the United States continues to grow in the world economy--learning the very basic differences between those regions can be an invaluable resource. From Asians who run their own business to the model minority myth to a discussion of attitudes toward wealth, understanding the economic foundations can help with trade relations. The guide's authors interview East Asians and asked what are the most frequently questions about their culture. The answers are very simple yet personal regarding the East Asian culture--such as, are chopsticks used throughout Asia? Or do Japanese eat sushi every day? Or what gives East Asian eyes their distinctive shape? The answers will hopefully help spark conversation to better understand different cultures. The guide is very sensitive on topics that would be difficult to ask face-to-face. Specific details on greetings, holidays and beliefs will help bridge the communication gap and erode myths.
